

# Space industrialization

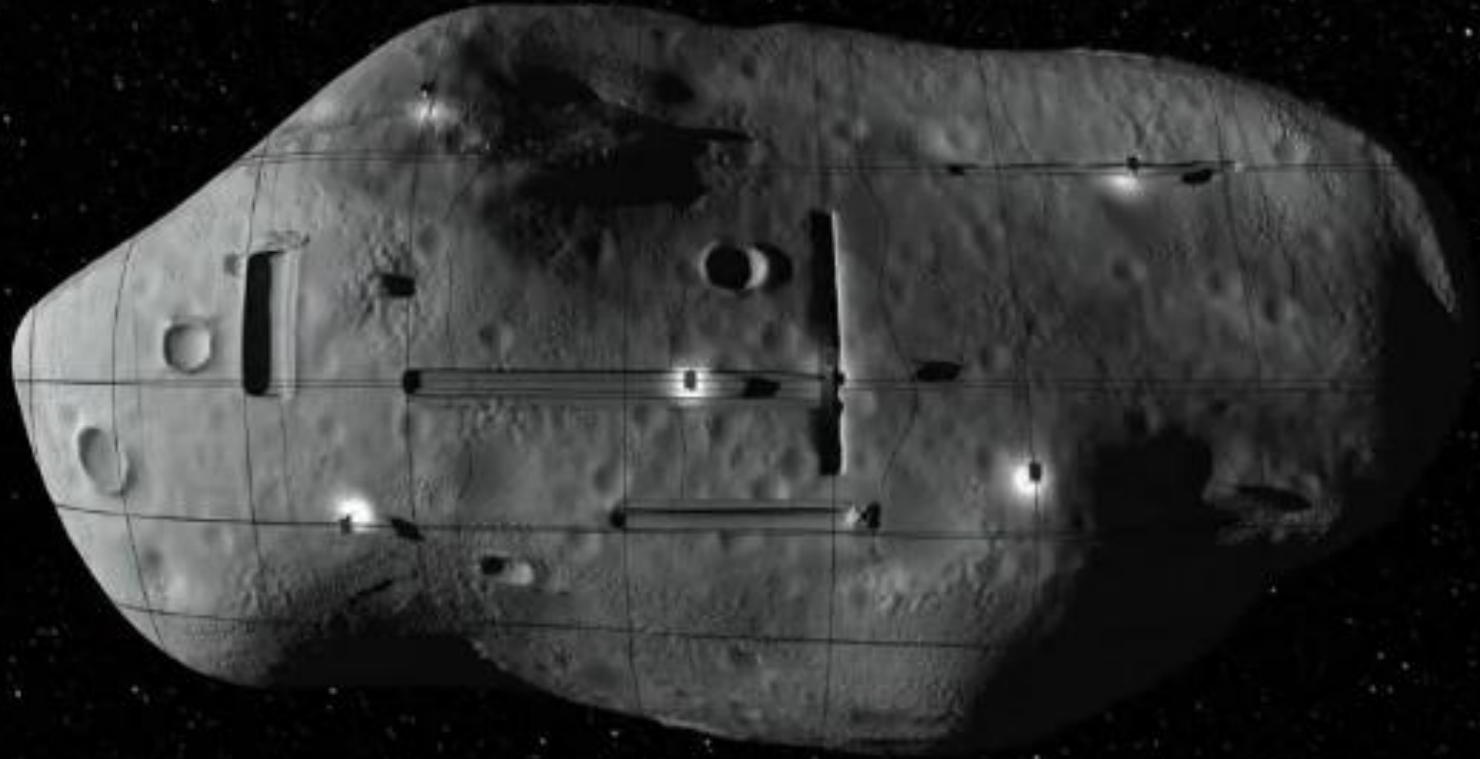

..and why it is so important for mankind

Prepared by Ivan Lyulyaev  
Student of ICS-22B

# New Technologies and Research

Colonization

is our Ultimate Backup

# Space Mining Could Save the World

Asteroids

..don't  
care

A full-page background image featuring an astronaut in a white spacesuit floating in space. The astronaut is positioned in the center-left, with their body angled towards the viewer. The Earth's blue and white cloud-covered surface is visible on the left side of the frame. The right side of the frame is a deep black space filled with numerous small, distant stars.

We  
are  
explorers.
